AGENCY ASSISTANCE TO U.S. FEDERAL,
STATE AND LOCAL GOVERNMENT COMPONENTS

1. Recent developments have demonstrated the need to make certain that any assistance or support rendered by the Agency to other federal, state and local government departments and components of the United States be only such activities which are known to and approved by current top level management. This notice institutes a reporting system on the basis of which each current activity will be approved for continuation or will be terminated or modified.

STAT Headquarters Regulation is being prepared for issuance in order to accomplish similar controls on future requests for assistance or support.

2. Each operating official shall report to his Deputy Director all current agreements, arrangements and practices by his component and personnel, whereby assistance or support is provided to any government unit mentioned above, or to private organizations in connection with services that they provide such government units. Reports will cover foreign and domestic assistance, specifying administrative, financial, and logistical assistance, as well as operational and intelligence support (including both finished intelligence programs and activities and information reporting by the Directorate of Operations). Information should be reported as soon as possible, and in any event not later than 16 July 1973. Any activity not reported by that date, through error, omission, or otherwise, shall be reported as soon as possible.
